## WELCOME

On 7 and 8 November 2019 the Netherlands Society of Rehabilitation Medicine (NSRM/ VRA) will organise the Dutch Congress of Rehabilitation Medicine (DCRM) in Utrecht, the Netherlands. The theme of this highly interactive and interdisciplinary conference is 'Rehabilitation Medicine: in the right place, at the right time'.

### **In the right place, at the right time**

Medical care is shifting from hospital based care towards care networks around patients. Keywords are: care in the right place, at the right time, and in close cooperation with the patient, carers and professionals. From rehabilitation in intensive care units to rehabilitation by eHealth. From rehabilitation in highly specialized rehabilitation centers to rehabilitation at home. This shift requires not only reorganization of rehabilitation services but also new innovative approaches and treatments based on firm scientific research.

### **Participants & target audience**

We are inviting a wide range of professionals e.g. physicians, psychologists, physiotherapists, human movement scientists and related specialists working in the field of rehabilitation in the Netherlands and globally to join us for this highly interactive and interdisciplinary conference. We expect at least 650 participants to visit our congress.

### **Inspiring programme**

The scientific committee will tailor a compelling scientific programme presented by influential clinicians and researchers. In addition to major contributions from renowned keynote speakers, there will also be an abundance of mini-symposia, free paper presentations and workshops. The scientific programme can be found at the congress website. This site will be updated on a regular basis!

### **Sponsorship opportunities**

We cordially invite you to sponsor our annual congress in November 2019 in Utrecht. The DCRM 2019 offers great opportunities to expose your activities and/or products to rehabilitation professionals. We have outlined all the sponsorship and exhibition possibilities in this document.

We are greatly looking forward to welcoming you at the unique venue 'De Fabrique' in Utrecht in November 2019!

Yours sincerely,  
Prof. Coen van Bennekom MD PhD

# 7 & 8 November 2019

## Inspiring programme

This Scientific Committee has done its utmost effort to present an inspiring programme to facilitate the discussion for new ideas in research, education and clinical practice of rehabilitation medicine, not only in the Netherlands but also globally. The scientific programme will cover a diverse range of topics. Renowned keynote speakers are invited. The large number of workshops and mini-symposia and free paper sessions during these two days will guarantee a broad variety of interesting scientific topics. During the PhD thesis session the most interesting results of valuable scientific work is presented. A debate session where the pro and cons regarding a central theme within Rehabilitation Medicine will be organized in which delegates are invited to think out aloud and share their views. And last but not least very interesting posters will be presented in the meeting area where participants are invited to discuss the results of the high quality research that has been performed within rehabilitation medicine.

Please, keep a close look on our website for more information about the programme.

## Networking breaks

Breaks in the programme allow participants enough time for networking and visiting the exhibition. Catering is placed in the exhibition area, to guarantee flow of participants in the exhibition area.

## Social Event

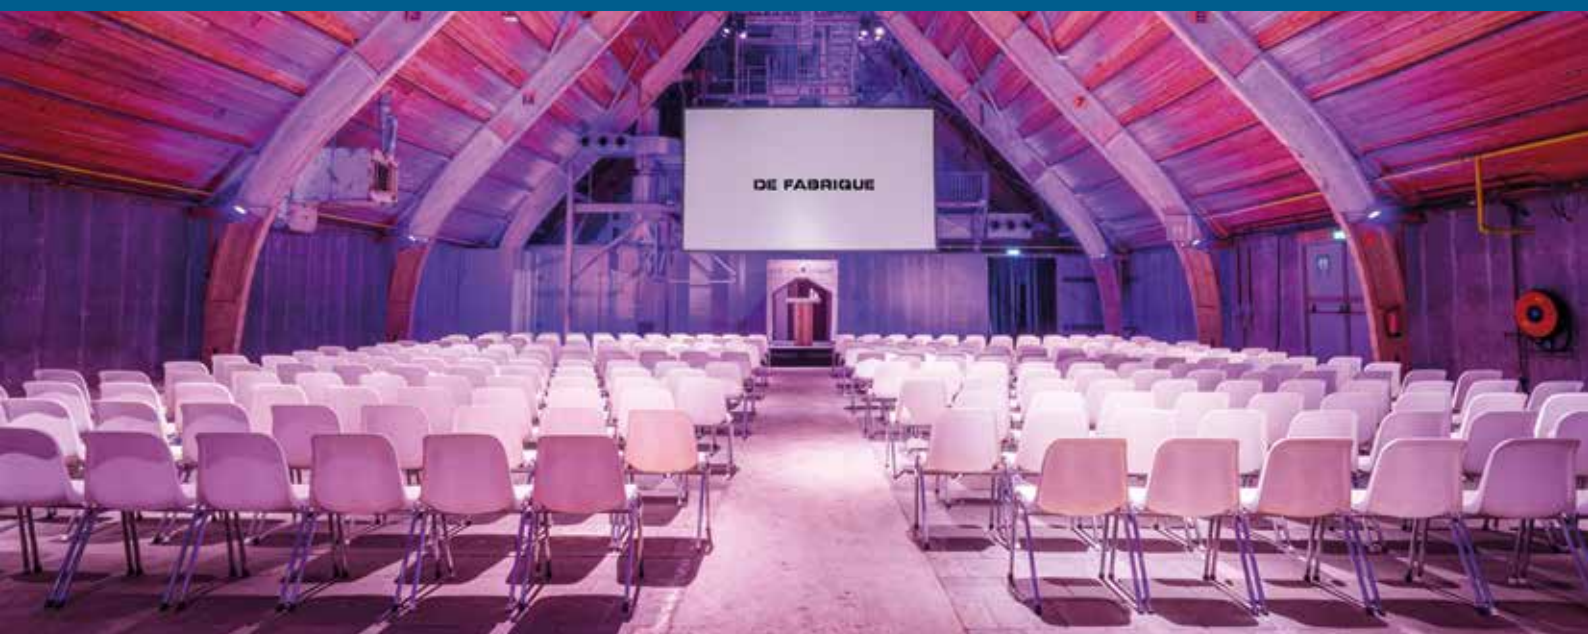

On Thursday evening, the traditional congress dinner with music entertainment, will give all participants and exhibitors the opportunity to meet colleagues in an informal setting. We also offer our sponsors the opportunity to attend the congress dinner. Sponsors will be informed on the registration procedures in due time.

## Accreditation

Accreditation will be applied for physicians in rehabilitation medicine and for physician assistants.

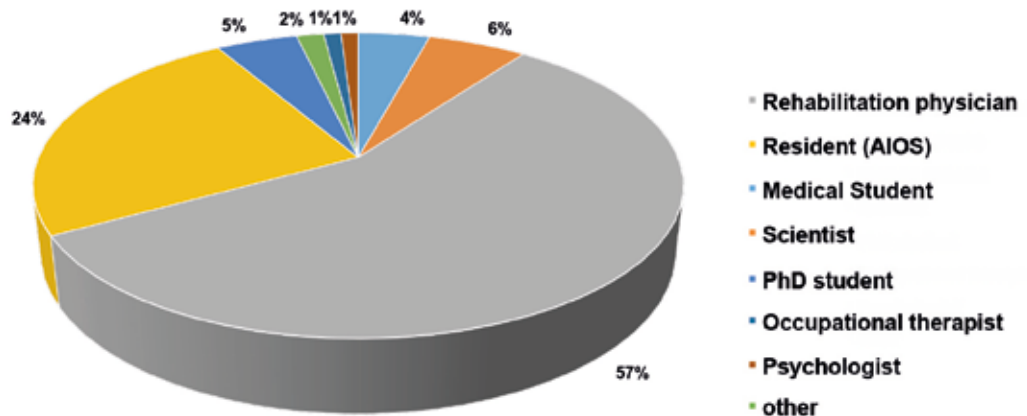

## Participants & target audience

We are inviting a wide range of professionals e.g. physicians, psychologists, physiotherapists, human movement scientists and related specialists working in the field of rehabilitation to join us for this highly interactive and interdisciplinary conference. We expect at least 650 participants.
